<p>), both beguilingly and with just a hint of a challenge. As Dennett points out, "people care so deeply what the answers are [about consciousness] that they have a very hard time making themselves actually consider the candidate answers objectively" (p.11). </p> <p> — Nature , From Bacteria to Bach and Back, The Evolution of Minds, Daniel C Dennett. 9780393355505 Natural selection ...

### from bacteria to bach and back summary

In From Bacteria to Bach and Back, his eighteenth book (thirteenth as sole author), Dennett presents a valuable and typically lucid synthesis of his worldview. Though it is supported by reams of scientific data, he acknowledges that much of what he says is conjectural rather than proven, either empirically or philosophically.
